Eries and Alton Lead List-Slight Losses in Other Stocks, But Changes Unimportant

SOME STRONG SPOTS IN STOCKS, WARKET PUZZLING BUT GENERAL LIST DULL AND FEATURELESS.

NEW YORK, March 25-2 p. m.-In TODAY'S PRICES ON the second hour of the afternoon Reading developed a firmer tone, advancing to 132%, a net gain of %, Rock Island moving up a little, while Erie added % to the gains of the earlier part of the day. Alton touched 67 again.

standard stocks to a higher range and Great

accept the dictum of the public service board, secure the consent of 90 per cent Wisconsin Cen. com. 4514 4612 4514 Wisconsin Cen. com. 4914 4914 of the bondholders of the company,

week in March showed an increase of \$189,000. The dividend disbursements for the first quarter of the current year were given as about \$155,000,000, and this ought to help some, although dividends have been going largely into bonds of late. Great Northern declared its regular dividend of 1% per cent quarterly, payable May 1 to shareholders of record April 10. This announcement was without effect, as it had been fully expected.

Better Demand for Money.

The Bank of England made no change in its discount rate, but it showed an increase in reserve.

There is a slightly better demand for both time and call money, and the rate for the latter this morning was 2 per cent. Attention is directed to the withdrawal of \$30,000,000 of gold as likely to be having some effect. Moreover, preparations are now being made for the April disbursements, estimated at \$155,000,000. There is a slightly better demand

est on the list. Chicago and Alton started at 641/2, a point rise, rose to 67, eased to 66, and coming again turned 66%. This was purely on the statement advanced from 64% yesterday's closing northwest): to 65 with slight reaction. Kansas City Southern was % higher on the common and a like fraction better on the preferred. Toledo, Peoria and Western were a point higher. These with some of the equipment shares were the strong ints of the list, and there was a reason for it.

Baltimore and Ohio was barely steady.

Colorado

Baltimore and Ohio was barely steady. Chesapeake and Ohio lost %. Colorado Southern issues were all very soft. Great Northern was off a fraction. Nipper lost % and New York Central %. The leaders, the Harrimans, started out higher, Union Pacific advancing %. Then this was lost and % additional, with % point recovery. Southern Pacific steady and but little changed. Reading was % higher early, to just barely steady.

Industrials.

In the industrials Steel, common, was and the preferred % off. Railway Springs gained 78. and Steel Car 14. Copper rose to 70% and dropped to 70%. Smelter was a shade off.

Despite this slight recession in prices the stocks that showed the loss did not appear to be at all weak.

FAMILY HAS NARROW

But for the fact that a small colored boy awakened them, Mr. and Mrs. Charles W. Conley would probably have been burned to death in the fire which completely destroyed their \$15,000 residence, near Fairland, between 2 and 3 o'clock this morning.

The fire, which originated through a defective flue, attracted the attention of the boy, who was the only person in the servants quarters on the premises. Although the house was partially consumed, he made his way to the room occupied by Mr. and Mrs. Conley,

Dr. Josephine Howland, who has been Privated the boy, who was the only person in the servants quarters on the premises. Although the house was partially consumed, he made his way to the room occupied by Mr. and Mrs. Conley, who were still unconscious of the dan ger which threatened them. They barely had time to scantily clothe themselves and escape from the building before it collapsed.

Not only was the dwelling destroy- death. d, but everything in it was burned.
large number of valuable curios. A large number of valuable curios, collected by Capt. Edgar Conely, a son of Charles W. Conley, on his trip around the world, were consumed. The dwelling, it is understood, was fully covered by insurance.

\$350,000 Fire Loss.

JACKSONVILLE, Fla., March 25 .-Fire today destroyed several manufac-. turing institutions in the business heart of the city, causing a loss of \$350,000. RICHMOND, Va., March 25.-Fire early today destroyed the theatrical boarding house operated by Mrs. Cornelius Goldberg, and caused a panic among the score or more of inmates, and drove them into the street in their Several women were overcome by

NEW YORK EXCHANGE

(Quotations furnished by W. B. Hibbs & Co., bankers and brokers, Hibbs Building

There was no improvement in the volume of business transacted.

At., Top. & S. Fe. 1633, 1833, 1834, 1834, 1835, 1834, 1835, 1834, 1835, 1834, 1835, 1

day's closing carried values on the standard stocks to a higher range and then the usual profit taking that comes on advances in this market—the hard spots that induced liquidation—developed, and there was a turn the other way that went a little further than the gains.

Some Bull Influences.

Where positive influences were at work and in evidence positive changes resulted. Thus Chicago and Alton rose on a statement of earnings that showed that the road during the last six months of 1908 had earned \$6,669, 214 gross, \$2,729,627 net, and a surplus of \$752,645.

Kansas City Southern moved up on

and issue the much-talked-of \$30,000,000 of bonds.

There were some other influences announced, but they were not of the kind to have much more than a steadying effect. Northern Pacinc for the third week in March showed an increase in earnings of \$77,000. Texas Pacific for the same week \$21,534 increase, and this caused a sharp advance in Texas Pacific shares. Canadian Pacific for the third week in March showed an increase of INDUSTRIALS. 1301/2 | geese, 1b., 11a13c.

Carr, for one two-story brick and frame dwelling at \$20 Taylor street northwest; architect, C. M. Chanev; builder, R. J. Carr, Estimated cost, \$5,000. To J. W. Carr, for one two-story brick and frame dwelling at \$20 Taylor street northwest; architect, C. M. Chanev; builder, R. J. Carr, Estimated cost, \$5,000. To J. W. Carr, for set wo-story brick and frame dwelling at \$20 Taylor street northwest; architect, C. M. Chanev; builder, R. J. Carr, Estimated cost, \$5,000. FOR ALL BUILDINGS

We guarantee to build with our molds any design required, and at a much less cost than stone, brick, or frame. This is the latest idea in the construction of modern houses and buildings of all kinds. Our proposition is to form a company for the District of Columbia of the Shub's system of molds for the construction of these buildings of reinforced concrete, and we are authorized by the patentee to organize a company here for \$500,000 authorized stock, 60 per cent of the capital stock to consist of 7 per cent cumulative preferred stock, 40 per cent of common stock, which will be entitled to voting power. We will only offer for sale 500 shares at \$100 per share. The books of the company will be open from the date of this advertisement. The stockholders will consist of local people, who will have control of the company and manage the business, so that all of their investments will remain in their own hands and under their control. All the capital subscribed will be put into active use, as the inventor will receive nothing until after the company has made some profits and is ready to pay dividends. The inventor to receive a reasonable percentage of the capital stock of the local company. The company will not be in open competition with other builders, as they will be able to sell what it cost others to produce, and still make a handsome profit. They will have an overwhelming advantage over all competitors. The demand for building is known, the superiority of concrete is established, and the meris of the molds can be proven, and are interchangeable. These buildings are absolutely fireproof, free from moths, rats, and vermin of all kinds, besides eliminating the cost of insurance.
